Strong Nationwide Support for D.C. Voting Rights across all Groups of Americans

*82 Percent of Americans Support Equal Voting Rights for DC in Congress  
Up 10 percentage points in 5 years*

Dear Colleague,

Last year the Government Reform Committee held a hearing on four separate and different bills we introduced for congressional voting rights for D.C. citizens. A recent national poll shows remarkably strong evidence of support, **regardless of political party, region, ethnicity, age, gender or religion.**

**Please turn over and see for yourself.** Visit [www.dcvote.org](http://www.dcvote.org) and [www.krcresearch.com](http://www.krcresearch.com) for more revealing and interesting statistical evidence of the strong support from the national poll.

Sincerely,
